SPACE

NEWSLETTER for June 2008

President's Corner
by Michael Current
June 2008

This morning when I arrived at work, and I checked my personal email (what else to do upon arriving at work?), I had an email from Mike Schmidt asking for the President's Corner for June. Eeek, I actually forgot this month! For all these years, I don't think that's actually happened before, as far as I can remember. Sorry Mike!

So here we are. And, I just sent in a whole bunch of news items, mostly new stuff for the ST/Falcon. We seem to mostly focus on the 8-bits around here, so you ST and Falcon users should be enjoying this change of pace!

Thanks, keep using that Atari, and come to your next SPACE meeting, Friday June 13, 2008.

****

Treasurer's Report
by Greg Leitner
For May 2008

Every year for the May Space meeting we overshadowed by Mother's Day weekend. And we all know that Mother's Day weekend also means opening fishing. With all that we still had five members present and that represents fifty percent of our total membership which wasn't bad at all.

It looks like our web-site is going to be revamped with the help of Nolan and Michael and we look forward to the new changes. It was nice to see Nolan back after his return from Florida. We missed his web-site reporting the last few months during his absence.

Glen brought in a great Dom for the May meeting and my son, Tony and Nolan got into quite a competition with a game called BELLJU1K where you hop onto bells as long as you can without hitting bottom. This game was so addictive that Nolan bought his first Dom in a long long time. Don't forget to get this Dom the next meeting you can attend.

Now for the Treasurer's report for May 2008:

Beginning balance as of May 1, 2008: 875.56

Receipts for the May meeting:
Membership renewal 15.00
Doms 6.00

Disks   2.00

Total receipts for the May 2008 SPACE meeting   23.00

Expenses for the May meeting:
Web-site fees-for six months   60.00

Ending balance at May 31, 2008:   838.56

Still a healthy balance and the only expense I can see in the near future is our web-site monthly fee and the Newsletter expense for the last year. I need to get an e-mail to Mike Schmidt to get his bill since last May 2007.

We need to plan our July SPACE birthday party next month so it would be great if we had a good turnout for the June SPACE meeting. I would like to hold another auction for the July meeting so I am hoping for a good turnout this year for our birthday party. See you all next month.

****

Secretary's Report
By Steven Peck
For May 2008

Well, hello again fellow Atarians. Here I am with another Secretary's Report. It is an honour to serve the Report to you all. It was great to see Nolan Friedland again. Welcome back, Nolan, and we hope that you are all right.

Anyway, I am glad that the treasury is going strong and that things are well with that. Even with the few guys that were at the May meeting, we had a good time and a lot of fun, especially with that addictive DOM that Glen provided (thanks again, Glen). It was, overall, positive as always.

That concludes the Report. Thanks for reading, keep that using that Atari, and see you next meeting.

****

BBS Corner
By Nolan Friedland
For June 2008

If anyone has any comments, suggestions, ideas, or submissions for the BBS Corner column or the SPACE BBS web site, you may email them to me, Nolan Friedland, at the address shown on the back of this newsletter under the "CLUB OFFICIALS" section.

Sent: Saturday, May 17, 2008 9:48 PM
Subject: Atari delisted from NASDAQ

NEW YORK, May 8 /PRNewswire-FirstCall/ -- Atari, Inc. (Nasdaq: ATAR), an interactive entertainment company, announced today that on May 7, 2008 it received a letter from The Nasdaq Stock Market stating that a Nasdaq Listing Qualifications Panel has determined to delist Atari, Inc.'s securities from the Nasdaq Global Market and will suspend trading of Atari, Inc.'s shares effective on the opening of business on May 9, 2008. Atari, Inc. plans to request a review from the Nasdaq Listing and Hearing Review Council, which could alter or dismiss the Panel's determination. However, such a request will not delay the suspension of trading. Atari, Inc. now expects to be quoted on the Pink Sheets, an electronic quotation service maintained by Pink Sheets LLC. The Pink Sheets allow continued trading of securities of delisted companies. Atari, Inc. expects its common stock to be traded on the Pink Sheets under the symbol "ATAR" or "ATAR.PK". Atari, Inc.'s common stock may also be quoted on the OTC Bulletin Board(R), a regulated quotation service for over-the-counter securities, provided one or more market makers apply to quote Atari, Inc.'s securities.

As previously announced, on December 21, 2007, the Nasdaq Listing Qualifications Department notified Atari, Inc. that, pursuant to Nasdaq Marketplace Rule 4450(e)(1), unless the market value of Atari, Inc.'s publicly held shares (which is calculated by reference to Atari, Inc.'s total shares outstanding, less any shares held by officers, directors or beneficial owners of 10% or more) maintained an aggregate market value of $15.0 million or more for a minimum of 10 consecutive business days prior to March 20, 2008, Atari, Inc.'s securities would be subject to delisting. The value of Atari, Inc.'s publicly held shares did not reach that level within the required period, and on March 24, 2008, the Nasdaq Listing Qualifications Department notified Atari, Inc. that the Nasdaq Staff had determined that Atari, Inc.'s securities were subject to delisting unless Atari, Inc. requested a hearing before a Nasdaq Listing Qualifications Panel. Atari, Inc. requested a hearing on March 27, 2008, which stayed the delisting process until the hearing was held and the hearings panel delivered a decision. The hearing was held on May 1, 2008. The Nasdaq hearings panel thereafter ruled to proceed with the delisting process and, effective May 9, 2008, Atari, Inc.'s common stock will no longer trade on The Nasdaq Global Market. Atari, Inc. plans to request that the Nasdaq Listing and Hearing Review Council review the Nasdaq hearings panel decision.

Atari, Inc. announced on April 30, 2008 that it intends to merge with its majority shareholder Infogrames Entertainment S.A. ("Infogrames") which holds approximately 51.4% of Atari, Inc.'s common shares. Atari, Inc. believes that its delisting from The Nasdaq Stock Market will not affect the pending merger transaction.

About Atari, Inc.

New York-based Atari, Inc. (Nasdaq: ATAR) publishes and distributes interactive entertainment software in the U.S. The Company's 1,000+ published titles distributed by the Company include hard-core, genre- defining franchises such as Test Drive(R); and mass-market and children's franchises such Dragon Ball Z(R). Atari, Inc. is a majority-owned subsidiary of France- based Infogrames Entertainment SA (Euronext - ISIN: FR-0000052573), an interactive games publisher in Europe. For more information, visit http://www.atari.com.

From: Michael Current [michael@mcurrent.name]
Sent: Saturday, May 17, 2008 9:45 PM
Subject: Infogrames to buy out entire share of Atari

LYON, France and NEW YORK, April 30 /PRNewswire-FirstCall/ -- Infogrames Entertainment S.A. (Euronext - ISIN: FR-0010478248) ("Infogrames" or "the Group") and Atari, Inc. (Nasdaq: ATAR)
("Atari") today announced that they have reached a definitive agreement to merge.
    The agreement:
    -- brings to a close a period of financial underperformance for
       Atari;
    -- strengthens Atari under Infogrames' new management team;
    -- delivers a platform for future growth in the US; and
    -- offers Atari shareholders an all cash exit.

Under the terms of the merger agreement, Infogrames will acquire the remaining outstanding equity interests of Atari (other than shares of common stock held by Infogrames or its affiliates, which would be cancelled) for US$1.68 per share, equivalent to a cash payment of approximately US$11 million. Infogrames is currently the majority shareholder in Atari holding approximately 51.4%. Following the merger, Atari will be a wholly- owned subsidiary of Infogrames. The merger will be funded by Infogrames from existing cash resources. The transaction is not subject to any financing conditions and is expected to close in the third calendar quarter of 2008.

This agreement is an essential and positive development for Infogrames and its shareholders. It brings Atari fully under the control of Infogrames, delivering a platform for future growth in the US. This step closely follows a series of recent major restructuring actions implemented in an effort to reposition Atari, streamline its corporate structure and reduce its annualized costs, including costs related to being a US public company.

The Board of Infogrames believes that full ownership of a restructured Atari is an important step for the Group, leading to a simplified operating structure that will deliver greater efficiency, provide the Group with greater opportunities to expand its US distribution capabilities and strengthen its platform for its global online initiatives.

Commenting on today's announcement, David Gardner, CEO, Infogrames, said:

"Bringing Atari US and Infogrames businesses together will enable us to create a simplified global structure for our business as we seek to re-build a well-managed, cohesive and financially disciplined company. This is a key strategic event for Infogrames that will benefit all of our shareholders. I believe that this transaction will generate significant benefits for the Group."

The management of Atari, Inc., led by recently appointed President and CEO, Jim Wilson, will join the Group upon the

closing of the transaction and remain focused on growing the key North American gaming market.

Mr. Wilson said:

"By joining Infogrames, we will have the opportunity to further transform Atari. As part of this newly integrated company, we will be better able to streamline operations and have a stronger platform for growth in North America."

The transaction was negotiated and approved by the Special Committee of the Board of Directors of Atari, consisting entirely of directors who are independent of Infogrames. In approving and recommending the merger transaction, the Special Committee considered, among other things, the terms of the merger agreement, which permits the Special Committee to terminate the agreement under certain circumstances, Atari's financial position and results of operations, general market and industry conditions, the risks of implementing Atari's business plan, Atari's limited liquidity and the limited range of options available to Atari. The Special Committee also considered the effects of Infogrames' controlling interest, the risk that the transaction will not be completed, the premium to Atari's share price 30 days prior to the date of Infogrames' offer, and the willingness of Infogrames to extend a loan of up to $20 million to Atari to cover expected capital requirements.

The transaction is subject to a number of customary conditions, including the approval of the holders of a majority of outstanding shares. Atari expects to call a special meeting of shareholders to consider the merger in the third quarter of calendar 2008. Since Infogrames controls a majority of Atari's outstanding shares, Infogrames has the power to approve the transaction without the approval of Atari's other shareholders.

In connection with the transaction, Infogrames has committed to lend Atari US$20 million, subject to the terms and conditions of the credit agreement between Atari and Infogrames. This loan will be used to fund Atari's operational cash requirements during the period between the date of the merger agreement and its closing.

This press release is not a solicitation of a proxy, an offer to purchase or a solicitation of an offer to sell shares of Atari, and is not a substitute for any proxy statement, tender offer statement or other filing that may be made with the Securities and Exchange Commission ("SEC") with respect to the proposed merger transaction. Atari intends to file and deliver all forms, proxy statements, tender offer statements, notices and documents required under state and federal law regarding the proposed acquisition. Atari will be filing preliminary proxy materials with the SEC for the special meeting of shareholders to be held to vote on the proposed merger. Upon completion of the SEC's review of the preliminary proxy materials, Atari will call a special meeting of its shareholders to vote on the merger and will file with the SEC and mail to Atari's shareholders definitive proxy materials. Before making any voting or investment decisions, investors and shareholders of Atari are urged to read the definitive proxy materials regarding the merger transaction carefully in their entirety

when they become available, because they will contain important information about the proposed merger transaction, including, among other things, the recommendation of Atari's board of directors in respect of the merger. Copies of the definitive proxy materials and any amendments or supplements thereto may be obtained without charge, as they become available, at the SEC's website at http://www.sec.gov or at Atari's website at http://www.atari.com/us/investorRelations. Investors and shareholders also may obtain a free copy of the definitive proxy statement, when it becomes available, and other documents filed with, or furnished to, the SEC from Atari by directing a written request to Atari, Inc., 417 Fifth Avenue, New York, NY 10016, Attention: Arturo Rodriguez.

Atari, its directors, executive officers and certain members of management and employees may be deemed to be participants in the solicitation of proxies from Atari's shareholders in favor of the approval of the transaction. Information regarding such officers and directors and their ownership of Atari common stock is set forth in Atari's Proxy Statement on Schedule 14A for its 2007 Annual Meeting of shareholders, filed with the SEC on September 18, 2007, and Atari's Proxy Supplement filed with the SEC on November 1, 2007.

Notes to Editors

Infogrames Entertainment, the parent company of the Atari Group, is listed on the Paris Euronext stock exchange and has two principal subsidiaries: Atari Europe, a privately-held company, and Atari, Inc., a United States corporation listed on NASDAQ (ATAR). The Atari Group is a producer, publisher and distributor of interactive entertainment software for all market segments and in all existing game formats (Microsoft, Nintendo and Sony) and on CD-ROM for PC. Its games are sold in more than 60 countries.

New York-based Atari, Inc. (Nasdaq: ATAR) publishes and distributes interactive entertainment software in the U.S. The Company's 1,000+ published titles distributed by the Company include hard-core, genre-defining franchises such as Test Drive(R); and mass-market and children's franchises such as Dragon Ball Z(R).

Subject: atari++ updated to 1.54

--Date: Thu, 22 May 2008 16:07:54 +0200

Hi folks,

A new release of atari++, the Atari 8-bit emulator is available for download at its usual location, namely:

http://www.math.tu-berlin.de/~thor/atari++/

New in this release:

- Fixed the handling of the initial keystroke.
- Added a curses (text-based) front-end.
- GTIA artifacts now support various GTIA models.
- GTIA supports now user-defined color maps.
- The GUI can now be used entirely by the keyboard or the joystick, use the cursor keys to move the pointer from gadget to gadget and press RETURN to click on an object.
- Added a RelMouseStick input device that reacts on the relative mouse movements rather than its abstract position.
- Fixed the POKEY audio muting, it is now able to detect situations in which a lower mixing frequency is audible even though the channel itself is not.
- Fixed initial timing/speed setting, could have caused audio-drop outs or slow play-back.

Note that the terminal output ("CURSES") is only available on *ix operating systems, not for win. For details how to use it, please consider the manual (included in the archive).

Thanks,
　　　Thomas

Subject: Atari800DC 0.77

Topic: Atari800DC 0.77 (sanny -- Today, 3:02 PM)
....
Hi all,

I've released a new version of the Atari800 emulator for the Dreamcast.

See http://www.groessler.org/a800dc/index.html
(http://www.groessler.org/a800dc/index.html) for a simplistic project page, and
ftp://ftp.groessler.org/pub/chris/dreamcast/atari800dc/0.77/atari800dc-0.77-bin.tar.gz
(ftp://ftp.groessler.org/pub/chris/dreamca...0.77-bin.tar.gz)
for the binaries.

Changes:

    * enable basic R: device emulation with the DC Coder's Cable
      (no modem controls; fixed to 8n1; baud rates 300 - 9600)
    * use Atari800 2.0.3 code base
    * use KOS svn code base version 560
    * add possibility to switch X and Y axes of controller input
    * ability to disable either the D-Pad or the Joystick of the
      controllers (in "Controller Configuration" menu)
    * ability to disable or enable Bienias' sound improvements. They
      are too heavy for the DC and therefore disabled by default.
      0.75 had them disabled, 0.76 had them enabled, now it's
      selectable.
    * when saving or restoring state display a "please wait" since
      accessing the VMU is very slow. This was already in 0.75 but
      got lost in 0.76.

regards,
chris

Pierre TON-THAT announced on usenet:

Bonjour

Download on my website or directly in the folder:
http://rajah.atari.org/files/ -> litchi11b_uk.zip (100 KB)

News for this FTP client (STinG or compatible):

bugfixes:
- no more crash at launch under MiNT with Memory Protection (*).
- removed bad TOS version detection (LPEEK)

+ shell capability in the local files window. Just programs launches.
+ the none-executable fichiers can be opened if an AV_SERVER is present.
+ Control is detected after drag'n'drop, for files moves Alternate +

+ mouse click : several items selected if one was.
+ mouse selection if an item was not selected
(adding files with shift is allowed, but while the rubberbox is active)

(*) could not test with both MiNT Memory Protection AND
MiNTNet. If someone could do it and tell, thanks.

Voilà

KK Commander 1.0C released ::

         May 03, 2008 - 05:07 PM :: lp :: 712 Reads ::

Pierre TON-THAT announced in usenet:

reBonjour

Download on my website, or directly in the folder:
http://rajah.atari.org/files/ -> kkcmd10c_uk.zip

Changes (thanks Olivier Landemarre & Mark Branson):

- removed unnecessary code
- if right-click on unselected file, select it.
If a selection alreadly exists, no effects.
- mouse selection with rubberbox (initiate it on an unselected
file).
- Control key detected also at the end of drag'n'drop (for files
moves)
- Alternate key detected with mouse click (select one file, then
select another + Alt key pressed)
- radio buttons correctly read in the
confirmation dialogbox for copying/moving files.

Voilà

I will work this week-end on my gem games to work with
MiNT Memory Protection, without recompiling yourself.

Regards
Pierre

Pierre TON-THAT announced on usenet:

Bonsoir

As always, download on my webpage, or directly in the
folder:
http://rajah.atari.org/files/ -> kkcmd10b_uk.zip (90KB)

If you don't know about this program, it's a shell à-la-total-
commander, very very basic. Can run in ST monoTOS
320*200, or under MagiC with long filenames.

News:
- MiNT Memory Protection compatibility (no more crash at
start, at least. remove of RESERVE at initialization)
- remove of LPEEK for TOS detection (use of GEMDOS
version)
- some minor changes in the RSC for ergonomic purposes
- mouse button right click = click on the "~" button

So it seems i have found how to produce .prg MiNT MP
compliant. Please tell me if it works correctly under you hard-
core user mint computer.
And i will fix/update my other programs.

Voilà

Subject: The last remaining Outline demo here

The last remaining Outline demo here   May 18th, 2008

Today Paradox finally released their winning 'Again' Outline
2008 demo (or actually it's a 96k intro).

As you have gotten used to by now, Paradox lines up a
number of BLiTTER-intensive effects as well as a great
soundtrack from 505. The intro needs a 1MB STe at the least.

So that more or less completes the Outline releases for this
year, we had some very good stuff, let's hope the trend
continues next year :)
